1. How do different times of day affect communication and socialization?
2. How can someone’s availability (or communication preference) be more apparent?

3. What are the different preferences to the working space for different jobs?
   (Programmers don’t like open offices)

   (Bigger screen or multiple screens or portable tablets?)

4. How to make staff feel more unity?

   (All company staff working on a 330-meter-long table)

5. How people feel the time duration while doing different kind of works?
   (Some works are very time consuming but people don’t feel it. However, some works don’t
   consume as much time as you expected but people don’t have time to do.)
